

## Outline

### **God Will Make a Way-Principle 3: Place High Value on Wisdom**

Wisdom is skill and knowledge applied to living. People do not inherently possess wisdom and knowledge; we need to acquire information and input from outside of ourselves. It's not possible for any of us to have all the answers—but our all-knowing God has created a template for us to follow. Join Dr. Cloud as he helps us understand the importance of wisdom. Proverbs 4:7 and Proverbs 19:8 tell us that this is the most important principle; when you get wisdom, you have gained something of great value.

#### Small group discussion questions:

1) Are you closed or open when it comes to seeking wisdom in all the important areas of life? Do you currently seek God for wisdom in every area of your life? If not, do you see the value of doing so?

2) Where are you in relation to the audit of circles mentioned? Do you know wise individuals? Do you ask these people for feedback and input on all important matters?

3) What have you been doing to get more knowledge and wisdom? What will you do differently now, to gain wisdom in all the important areas of life?
