## Outline

## God Will Make a Way Principle-6: Embrace Problems as Gifts

There is no such thing as a problem-free life. God doesn't intend for bad things to happen to us—although He may allow them. Dr. Townsend illustrates how our problems can actually be opportunities to understand ourselves and life better. If we can step away from the emotion of our problems, and begin to evaluate our situation more objectively, we will often discover patterns and information that can help us. We must take time to reflect on our situation; the wise person learns from difficulties and challenges.

## Small group discussion questions:

1)	) What	problem	have	I had	a ha	rd time	seeing	as a	gift?

2) Am I more invested in my comfort, or in my growth?

3) What can I learn from a recent problem that may help me see this problem as a gift?
