Outline

God Will Make a Way-Principle 8: Love God with All You Are

What does it really mean to love God with all you are? There is more to this principle than first meets the eye. Giving God our praise and worship is important, but that is only part of what He desires. He wants to connect with all aspects of us— the good, the imperfect, and the dark side. Dr. Townsend helps us grasp the full meaning of completely loving God, as he provides insight on this 8th principle from God Will Make A Way. This final session will allow us to examine how we are doing in bringing all of ourselves to God.

Small group discussion questions:

1) Have you ever completely loved someone, yet been disappointed by the outcome of the relationship? Has this influenced your ability to bring all of yourself into relationship with God?

2) Review the five areas that God wants to connect with. Are you holding back in one or more of these areas?

3) Are you ready to commit to bringing God the part or parts you have been holding back? Will you need help in order to do that?
