

Safe People Series – Chapter 13

Outline

Should I Repair or Replace?/Wrap Up

Our human tendency is to cut and run when people disappoint us; but because God is a healer, he is for repairing relationships. The Bible's main theme is one of reconciliation. Although there are times we do need to separate from toxic people, it's important that we make certain efforts before taking this step. Using God's model as an example, Dr. Townsend outlines steps that we can take in repairing our difficult relationships.

Small group discussion questions:

1) Do you have a deeper support group, to help you start from a loved position?

2) How can you be appropriately long-suffering, but still have the right boundaries?

3) How does the content on separation affect your relationship with someone today?
